PROGRAM BRIEF

You should not be applying for jobs.
Jobs should be seeking you out!!!

The Career Accelerator is a 4 module intensive program that helps you crack the code to building the career you seek. It is for you if you are either unemployed and looking for opportunities or if you are stuck in your current employment and seeking a change.

The approach to this program is defined by merging cutting-edge neurolinguistic programming (NLP) techniques, strategic brand development, AI based digital tools for marketing and extensive leadership development expertise for individual development

Objectives | Overview | Cost | Key learnings

"Since joining the program I have felt such a shift in my confidence as a leader. I have been thinking about how I engage, communicate and work with my team and colleagues and this has all been made possible since joining the mentoring program. The structure and networking platform has enabled me to connect with people, who I would never have crossed paths with.

I couldn't recommend the program more – I feel so empowered to continue on my leadership journey after being part of this.

Emma Hancock

Associate Director Talent Acquisition, Program participant

OBJECTIVES

If you are feeling stuck in your career, looking for a job or looking at changing your career, this program is for you. The program focuses on 3 core elements around Inner Engineering, Developing robust skills for career building and also a structured network development platform for growing your network and finding the career you seek.

Inner Engineering

Breaking patterns and inhibiting behaviors

Conquering fear and being unstoppable

Crystallizing vision and goals

Challenger mindset

Skills Builder

AI enabled brand development (LinkedIn, Resumes)

Power communication

Emotional intelligence, self confidence & NLP techniques

Body language

Network Development

Growing your network

Networking platform

Negotiation strategies

Positioning for leadership in interviews

Ongoing community structure to support development

"This is a standout in the world of development programs! This program's structured approach, perfectly aligns with Optus IDP structure, yet this is the first program I have attended that offers a holistic approach to development encompassing 3E's of experience, exposure, and education. Kudos to Venkat for crafting such an innovative program. It strikes the right balance between challenge and support, enabling us to make an impact that goes beyond ourselves. This is a must for anyone seeking comprehensive growth. I'd recommend this to anyone in a heartbeat!"

Meenakshi Dhull

Chairwoman Elevate Women's Network & Program Sponsor

MEET VENKAT KRISHNAN

Founder, CEO, Program facilitator

Hey there, I'm Venkat and I'm a leadership coach, a strategic therapist and a super memory coach. I've worn many hats in the corporate world, leading successful teams in strategy, transformation, and innovation.

But, I've also been on an incredible journey to understand the mysteries of the mind, learning from the best in strategy, transformation, memory training, hypnotherapy, and brain development.

I have been made redundant 4 times in my career and every-time I have faced redundancy, whilst in a state of doom and gloom, I have come out with newer skills and fighting stronger.

I have taken my learnings and learnings of others who are masters in their field around brand development, leadership and AI tech and have packaged these into this unique program that equips you with all the relevant ingredients required for transforming your career.

My passion is to share this unique knowledge with you and support you in getting the career you desire.

Connect with me if you're interested in learning more.

THANK YOU

You should not be
applying for jobs.
Jobs should be
seeking you out!!!

If this is not
happening now, it is
time to do
something different.
